

| Course Introduction | Wellington Living Lab Project | |
|---|---|---|
| Wellington Living Lab Project | Francine Similar is asst to the city manager | 1 Economic Inventory Analysis |
| | | 2 Equestrian Analysis |
| If you need to see the professor, email her first Yli22@fau.edu or phone her first | Our project is the project that ties it all together. | 3 Economic and Business Climate ? |
| | Bill Besner another employee a city planner | The Living Lab network is a grant but a partnership |
| Map the network drives | | It brings together all kinds of stakeholders |
| We will have a class folder for projects | Mike Odell a resident and part of the Living Lab Project. | Five groups of about 6 students |
| | | |
| | Our ideas will be incorporated. | |
| | | |
| | This the 4 th project of the series | |

| Vision | Introductions from Wellington | |
|--|--|---|
| A Great hometown: great neighborhoods schools And great parks | This is going to be a live study involving city staff And neighborhood services. | We need to think of this as a blueprint of Practicality and to synthesize information |
| | | |
| Mission: To provide high quality services that create Economic , environmental and social sustainability For ... | It will be real and will be documentable for Resume posting | We are calling them neighborhood prescriptions We need to write for the average person |
| | | |
| The Vision is for 2060 | They are looking for the action plan for the Neighborhood remember that planning is politics | The document is measureable. Increment able It will be clear and easy to understand |
| | | |
| Results of the Economic Inventory Analysis will be Available to us for our research. It was done 2011 | Politics is the art of possible ness | There is a template that they are found of: from Champagne, Illinois. The city likes this project |

| Bill | Francine | |
|--|---|--|
| Think of it as a matrix and its inter connective ness | They are wanting our views | The engineer side of the project is the Sociological view towards implementation |
| What will work and what won't work Know the limitations | They never had neighborhood services, now they Do for five years now | There is data ... too much of it that needs to be Synthesized |
| Aim lower if needed instead of to high | They do have a model block program that they Have not implemented yet | It sounds as if we can come up with simple Solutions to simple problems |
| If we need to email the city planners, please add "Student Question" to the subject line | | |
| | | |
| | | |
| | | |

| | First Presentation | Presentations 2 – 5 |
|--|--|-----------------------|
| | Google Maps, Background, Outline in the syllabus | Will be very detailed |
| | Use number 8 This is Physical Conditions | |
| | Public Safety and Crime | |
| | It is from the list 9, 10, 11, and 12 | |
| | What are our guiding principles | |
| | This is very broad | |
| | | |
