Mauricio – Very good knowledge of Material	They are not open to us leveling the place	Lighting and CPTED program
Let’s take out the erase of everything	I think we should all be part of the question and answer Section	Make a list of programs and initiatives
Let’s look at the Caloosa Presence		We do not want to reinvent the Wheel look at the Projects in place
We are talking of the proposal across the streets	Never say “I” this is a group project say “we”	He loved the 4H idea “yeah”
This is open for the average public	Did we miss the strong point of us being on the Cusp of the two major classes of wellington	What was the number of units per density acres
We have thought of a feed store to coffee shops	And that our neighborhood would bridge this	Check the vacancy rates

We need to be aware of the ongoing programs We should not recommend something that Is a program in existence.	The renting is not a bad thing but why is It that Renters are bad	What is the real solution for our renters of Our neighborhoods
It was interesting that “Lighting” kept coming Up – so that is an interest.	Make sure that we know what the parks are in Wellington but if it is not a park that exists In Wellington than it is a good thing, like our	
Note that this economy is now rental based. That maybe there should be targets programs To the renter	Do not limit to our neighborhoods think of the Contexts. How does this benefit Wellington What is the continuation of our designs into	
	But outside of our physical neighborhoods
