

Class Updates	Class Updates	An Idea for the Presentations
Final Report Will be graded Differently by Individuals.	If we want the final report let the professor Know with our email address.	During Question and Answers, if a question pops Up for a section that was not a presenters topic.
So For the second and final written reports we Need to type better with corrections	If we make the professor and Elliott’s job easier By formatting and grammar it will reflect on The group as a whole.	Can the presenter ask the teammate researcher That is in the audience for the answer of the Question.
Formatting		I think this will be a great way to incorporate the Whole team into the presentation.
Our group needs to post demographics		

Recommendation Report July 24	Final Summary July 24	Final Presentation July 31
Use the last template	It should be around 4 pages for each group	Summary, Summary, Summary
Change the content pages	It is under the Final Summary Report	Maybe two sections for the last presentation
