

Directional Lighting ~ Accents, Beacons, Bullets, & Spots

- d.AS50  Accent Lighting Stainless Steel Lamp up to 50 Watts
- d.BS50  Narrow Bullet Light Stainless Steel Lamp up to 50 Watts
- d.NS35  Narrow Spot Light Stainless Steel Lamp up to 50 Watts
- d.WS50  Wide Spot Light Stainless Steel Lamp up to 50 Watts

Accessories ~ Lamps, Hardware, Transformers, & Wires

- a.MT100  100 Watt Transformer For up to 80w Lamp Totals
- a.MT200  200 Watt Transformer For up to 160w Lamp Totals
- a.MT300  300 Watt Transformer For up to 270w Lamp Totals
- a.MT600  600 Watt Transformers For up to 540w Lamp Totals
- a.UT100  100 Watt Transformers Underwater Lamp up to 50w Total

Path Lighting ~ Bollards, Lanterns, Mushroom & Tier

- p.TS50  Tier Path Lights Stainless Steel Lamp up to 50 Watts
- p.MS35  Mushroom Path Lights Stainless Steel Lamp up to 50 Watts
- p.LS50  Lantern Path Lights Stainless Steel Lamp up to 50 Watts
- p.BS50  Bollard Path Lights Stainless Steel Lamp up to 50 Watts

Specialty Lighting ~ Access, Entry, Flood, & Steps

- s.AS50  Access Lighting Stainless Steel Lamp up to 50 Watts
- s.PS50  Post Lighting Stainless Steel Lamp up to 50 Watts
- s.SS50  Security Floods Stainless Steel Lamp up to 50 Watts
- s.UB50  Underwater Lighting Stainless Steel Lamp up to 50 Watts
- s.WS50  Wall Up Lighting Stainless Steel Lamp up to 50 Watts

Concept Statement:
Outdoor Lighting Concepts will transform the appearance of the daytime outdoor space into a visual stunning atmosphere of specialty lighting effects.

Notes:
The number inside the symbol represents the control group or switch for the set of lights.

Symbols drawn are larger than the actual devices that will be in their place.

The legend represents all lights suggested for use by Life~Scapes, Not all lights are used.

The Electrical Phase Installation must be done by a licensed and insured electrical contractor.

The Low-Voltage Phase Installation can be done by the home owner or an lighting professional.

Disclaimer:
This concept drawing is for the placement only of "Outdoor Lighting Items." It is not meant to be a construction drawing, but it can serve as the base for other drawings that involve the building process for construction and or for permitting purposes.
